PROJECTS

Smart Sales System (CWIZTECH ERP Project) May '23 – Jan '24

- Developed and documented the "Smart Sales System" final year project, utilizing Angular, MySQL, STS, Postman, Git, and Node.
- Worked on 3 ERP modules—Customer Panel, Sales Panel, and Orders Panel.
- Conducted comprehensive testing and ensured smooth execution of the project.
- Primarily worked as a frontend developer, enhancing the user interface and experience.
- Gained a deep understanding of tool integration and workflow optimization through practical application.

Builtron Associates Website

Aug'22

- Designed and developed a responsive website using WordPress with WpBakery plugin.
- Built a beautiful website for Builtron Associates to showcase their real estate magic.
- Still managing the website and check the require updates and maintenance
- We used Google Analytics to see what's working and what could be better.
